SPECIAL SESSION PROBABLY WILL BE CALLED BY GOVERNOR O'NEAL

Semi-Officially Announced in Montgomery that Clayton Will not be Seated by the Senate.

Montgomery Ala., Aug 28—Henry D Clayton will not be seated as United States Senator and a special session of the Alabama Legislature will be called within ten days after Governor O'Neal arrives from Colorado Springs according to information obtained from a semi official source at the Capitol Thursday.

It was stated that word has been received in Montgomery that the Senate Committee on Privileges and Elections which has the Clayton matter in hand has decided adversely to Mr Clayton by a majority of two votes. The opinion is now prevalent among those closest to Governor O'Neal that Mr Clayton will not be seated and that the extra session will be called to give the governor the power to name a successor to the late Senator Joseph F Johnston.

R B Evins legal adviser to Governor O'Neal is in Washington and is keeping in close touch with the situation. He said that he had advised Governor O'Neal of the exact status of the case and the governor will hurry home from Colorado Springs so as to be ready to take charge of matters should the senate refuse to seat Mr Clayton. Governor O'Neal has been in Colorado Springs for a week attending the Governor's conference.

Nineteen Vacancies

Although there is some doubt as to the Governor's authority to call a session of the Legislature until the nineteen vacancies in that body have been filled it is the almost unanimous opinion of leading lawyers that the executive has the power ... and can call the Legislature together within a few days. It has been pointed out that there were two vacancies in the last legislature yet there was no question as to the legality of the measures passed.

Word has been received at the capitol that the Republican members of the senate have decided to vote on the seating of Mr Clayton as a party matter while the Democratic members have shown a tendency to consider it from a constitutional standpoint. There are about fifteen republican members who believe that Mr Clayton is entitled to a seat in the senate because of the fact that they consider it a party matter they will vote with the majority members of the party against seating the Governor's appointee.

Democrats Divided

The Democratic members however according to the information received here are considering the question from a constitutional standpoint and are not sticking together. A minority of the Democratic members is opposed to seating Mr Clayton and since it will not vote on the question as a party matter it will mean that it will vote with the solid array of Republicans.

It was stated at the capitol Thursday that Governor O'Neal knows of this situation and that he is preparing for action in case Mr Clayton is not seated. In view of the stand taken by some of the Democratic senators it is practically certain that Mr Clayton will not be seated.

If the legislature is called ... Governor O'Neal ... such questions as he ... upon in his call. The ... two-thirds vote ...

GENEVA JAIL BIRD TURNS HEADS OF DOTHAN YOUNG MEN

Geneva has the pretty girls and if you don't believe it ask Henry Saxon and J B Folmar of Dothan. Last Thursday afternoon Saxon was driving his fine new Oakland car past the county jail when Folmar spied a good looking woman peering through the bars at them. He remarked to Saxon "Oh look at the pretty woman in the jail." Immediately Saxon forgot all about the car telephone poles etc and turned to rubber like a true Dothan ... and in a jiffy the car struck one of Herr Tillman's telephone poles amidship. Of course the car stopped right there but the off mud guard looked like a pretzel and the front axle had a decided list to port. We would advise these ... young Dothanites to wear blinkers next time they come to Geneva or else come in on foot.—Geneva Reaper.

FIRE BREAKS OUT ON LINER IMPERATOR

New York Aug 28—The Hamburg American liner Imperator the biggest passenger carrying ship afloat which arrived in port last night with 4109 passengers on board was swept by fire today as she lay at her pier in Hoboken N J.

Second officer Hermann Gerbrecht lost his life while trying to close the fire doors and confine the flames to the fifth deck or provision room. It was reported that two seamen had been burned to death and for a long time they were missing but subsequently were found.

Panic broke out among the 1,200 steerage passengers and many were hurt. The damage is estimated at $50,000.

This fire in the great ship so soon after her construction instantly brings to mind the fate of the great Titanic which sank on her initial voyage.

In comparison the

In comparison however the specifications of the Imperator are more imposing than those of the Titanic. The dimensions of the Hamburg-American liner follow: Length 919 feet, beam (width) 98 feet, gross tonnage 50,000. The Imperator's bridge is 90 feet above the water and her three gigantic funnels extend 69 feet above the upper deck. Her masts extend 246 feet from keel to truck.

Wireless apparatus sufficiently powerful to transmit messages 1500 miles was installed on the liner and she has carried three wireless operators on every voyage. She was equipped with five mighty anchors, one weighing 26,445 pounds, two weighing 17,646 and one 11,463. Her hedge anchor weighs 4,967 pounds.

JUDGE EVANS IS PROBABLY A CANDIDATE FOR CONGRESS

Member of State Tax Commission May Oppose Farmer and Steagall in Third District.

Montgomery, Ala., August, 28.—Judge A A Evans member of the State Tax Commission, may enter the race for Congress in the Third district in the event Henry D Clayton is seated as United States Senator. Several delegations from Judge Evans' home county of Barbour have called on him recently and asked him to make the race. The only candidates, besides Judge Evans, who are practically sure to make the race are Henry B. Steagall of Ozark and Byrd G Farmer of Dothan.

If Judge Evans enters the contest he is sure to prove a formidable candidate. He has served as circuit judge and as a member of the Alabama Supreme Court, being appointed to the latter position by former Governor B B Comer. He is now practicing law in Montgomery as senior member of the law firm of Evans and Parrish, but he retains his citizenship at Clayton.

Judge Evans is a member of the State Tax Commission and has long been regarded as one of the strongest men in the Third District. He has been mentioned several times as a possible opponent of Mr. Clayton.

CLAYTON WILL ARGUE BEFORE SENATE BODY

Washington Aug 28—Permission has been obtained by the friends of Henry D Clayton appointed senator from Alabama by the governor of that state to make additional arguments before the senate privileges and election committee notwithstanding the claimants presentation of his case to the committee last night by Senator Robinson of Arkansas and R B Evans legal adviser to Governor O'Neal.

The committee will take some time for consideration of the question in as much as the matter of filling every vacancy in the senate membership possibly as late as 1921 depends on the outcome of the situation. Supporters of Mr Clayton contend that under the new direct election amendment vacancies in the terms of senators chosen at the time the amendment went into effect this year must be filled by the state legislatures and not by direct election at the polls.

Would Call Assembly

In the case of the term of Senator Broussard of Louisiana this would call for the legislature to fill vacancy in his term of office should one occur before 1921 notwithstanding the people of the state will elect a successor to Senator Randell of Louisiana in 1918. They also contend the Maryland legislature must elect a senator to fill out the term of the late Senator Rayner, now occupied by appointment by Senator Jackson.

It is figured that five seats will fall vacant before 1918 and will be filled according to the decision of the senate acting upon the suggestion of the committee on privilege and elections in the Clayton case.

ARMY POSTERS.

Thanks be ,a new poster has been designed by those who conduct the campaign for getting young men in to the United States Army

The public is somewhat painfully familiar with a picture of a group of lackadaisical young gentlemen scattered about as features of a charming landscape, who are set forth as examples of the rarely privileged, perfectly happy men of the ranks One or two of these young men are engaged in what appears to be literary pursuits Others manifest as pleasure in nature's aspects Far away, above beautiful foliage suggesting the tropics there are glimpses of strange architecture--a mosque, maybe, or a pagoda.

The young men wear spick and span uniforms and an air of well being

The new poster presents somewhat real soldiers in the act of charging a hill; an action almost if not quite as false to the facts as the poster which has been replaced Still, the new picture suggests duties and labor, and is therefore a tremendous improvement.

We believe it is a fine experience for young men of too much spirit and not enough sense to serve in the army for an enlistment or two but we also hold that if they are to make an honest soldier, they ought to be reached by honest methods—St, Louis Times

Yes, and the very fact that Uncle Sam is having a time trying to get young men for the army is one of the best signs we have seen since the surrender

It shows that our young men have something else in mind, other than playing the war game, which is only glittering when war is going on, but mighty dull in times of peace

The failure to get young men to enlist will force the government to pay higher wages to its men of the ranks, It probably pays enough for officers now, and seems to have no trouble in turning out officers, but the men who do the work—they are the ones that make the wheels go around, and they are the ones that will have to be paid more, in order to keep the ranks filled with high class men, instead of a class of young men sent there, to be kept out of trouble,

NOT ALARMING.

The Montgomery Journal says an Alabama man who stole a ride on a train years ago, has written the ticket agent, proposing to pay for the ride, and that an Ohio man, who stole a ride on a steamship is going to pay for it, even if it was fifteen years ago And the Journal thinks that if this conscience thing keeps working there's no telling, where it will stop, and that in time the newspapers will be reporting cases where subscribers' have been sending in old debts, long ago outlawed .

Well, we doubt that When a man has nothing else to do with his money, he some times pays the doctor, and then, when he makes so much money he can't even pay it to the doctor, he then begins to wonder who he has beat out of some thing A few rare cases have been reported where railroads and other corporations have been reimbursed by people who had beat or stolen from them but that isn't a common man may fail to pay for his paper but there is no one on record where the failure ever stirred a man's conscience

Why is the soda cracker today such a universal food?

People ate soda crackers in the old days, it is true - but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

PLEA OF SOCIAL STANDING.

I am a society man Judge and I am well known in the business world in what Chicago H. Dix, manager of a telegraph office at Kansas City said in reply to the question of the Judge why he should not be sentenced for embezzling money belonging to the corporation for which he worked His plea failed to save him and he was given two years in the penitentiary

You think the penitentiary is a home for the friendless do you said Judge Latshaw who sentenced him You're as bad as the poor ignorant man who steals You're worse You have an education The judge hit the nail on the head He knew better than to steal the money from his employers He was a great society man and it took considerable money to keep up appearances As he did not have it he stole it

This should be a lesson to many others who try to live beyond their means—Montgomery Journal

ONE OF THE LEADERS

Hon B G Farmer of Dothan was in the city last Saturday, renewing his acquaintance with a number of his old friends here Mr Farmer expects to enter the race for congressman, and there is no doubt but that he is one of the strongest men yet announced Mr Farmer has been practicing law for a number of years and has founded for himself a reputation known all over the state of Alabama owing to a vast amount of experience and knowledge of law, he will be one of the leaders in the race —Ashton Advertiser

WEAR BLUE GOGGLES

Because a man saw sights he was hauled into court and fined for it

He was upon the streets coming or going, when he saw one of those Mayas or diaphanous skirts and he followed it till he got the sun right He was fined by the judge for his curiosity and the woman went on her way

If it's going to be as bad as that it would be a good idea for men to wear blue goggles for there is no telling what time something [illegible] he ought to look at, or feel as if he should

UNITED STATES WILL NOT YIELD NEXICAN DEMAND

Washington, Aug 28.—Administration officials here today declared that the United States would not yield to its demand that Huerta not be a candidate for presidency in the regular election.

Secretary Bryan announced today that he had received a summary of the supplementary note of Gamboa, Mexican secretary of foreign affairs, replying to the United States' peace proposals. Gamboa calls attention to the clause of the Mexican constitution prohibiting a provisional president from succeeding himself and charges the United States with being over suspicious.

United States officials here say that the way to apply the clause would have been to recognize Huerta as constitutionally chosen president. The government also raises the point that Presidents Madero and Suarez were forced by arms to resign.

Administration officials seem a way out of the difficulty if the Mexican congress, convoked of its own accord, will designate by virtue of its constitutional powers a provisional president who would call an election. Some optimism is gained here by withdrawal of the request that the United States and Mexico exchange their ambassadors. Gamboa merely asks that the embassies be maintained with their present staffs, but that they recognize the ad interim government of Mexico as constitutional. There is said to be very little likelihood of the acceptance of this proposal.

Lind Returns to Mexico City

Washington, Aug 28.—John Lind was today instructed to return to Mexico City from Vera Cruz if in his discretion it was deemed advisable. President Wilson had received a message from him which was described as "very optimistic."

Administration officials are silent as to their next move but it is understood that the way appeared to be open for the further discussion of disputed points such as the elimination of Huerta.

All Documents Published

Mexico City, Aug 28.—Documents connected with John Lind's mission to Mexico City were published today in the Mexican government organ in their proper chronological order.

They were the original instructions given John Lind by President Wilson, the reply by Frederico Gamboa, the second note presented by Lind to Gamboa and the Mexican foreign secretary's reply to the which is dated August 26.

The two latter documents [illegible] been made public in the United States.

There are nineteen vacancies in the Legislature now but it is probable that these will not be filled before the extra session is called. It would require thirty days to order special elections for these positions

SOCIETY LINKS ASTOR'S NAME WITH THAT OF ELIZABETH SANDS

MISS ELIZABETH SANDS

Society is still busy speculating as to the future wife of Vincent Astor who succeeded at his birth [illegible] the late Colonel John Jacob Astor as the head of the historic family and its great fortune. The young woman who is now looked upon as the most likely candidate for the hand and heart of Vincent is Miss Elizabeth Sands, daughter of Mrs. Frederick Sands of New York and Newport.

and this would [illegible] action on the [illegible] Monday [illegible] county [illegible] to the Senate and on to the House.

It is believed that the extra session of the Legislature will be a short one. If it is called the governor will no doubt be empowered to appoint a successor to Senator Johnston and there is little doubt that in such a case he would again name Mr. Clayton for the position. It is hardly possible that a special election will be called as there is no machinery provided for such an election.

ANOTHER GRAFT SYSTEM UNEARTHED AT HEARING

Washington, August 29.—A flourishing trade in public books and [illegible] printed by the government for members of Congress was revealed today before the House Lobby Committee.

Allen A. Irvine, a document broker called to impeach testimony of Representative J. T. McDermott given by I. H. McMichael, declined to tell names of Congressmen from whom he bought public documents.

Irvine testified that he traded documents for members of the House and Senate and bought from cutlaw members their quota of documents. He said McMichael had sold him documents and that he had traded documents with McDermott.
